

2019

SENIOR-LEVEL MEETING

13 - 14 JULY / NEW YORK

DRAFT PROGRAMME

Achieving the 2030 Agenda for Sustainable Development requires urgent additional efforts. It is time to complement the enabling architecture of the 2030 Agenda with a better understanding of **how** we partner and work together.

Ownership by partner countries, focusing on results, inclusive partnerships, and mutual accountability and transparency have never been more important for sustainable development. These four development effectiveness principles aspire to a more **empowered, inclusive and equal** rapport between partners, for more sustainable development outcomes.

And their power and relevance are evident in the record 86 countries and territories who received development co-operation and chose to participate in the 2018 Global Partnership monitoring exercise; and who believe the effectiveness principles are a **multiplier** for their development efforts.

The Senior-Level Meeting will take place just ahead of the Ministerial Segment of the 2019 High-Level Political Forum (HLPF) under the auspices of the Economic and Social Council. It will make tangible contributions to the 2019 HLPF by showcasing how greater collective efforts on effectiveness can accelerate country-level progress on the SDGs. It will provide insights into several goals under review in 2019, alongside new country-level data on SDG 17 (Partnerships for the Goals), and SDG 5 (Gender equality).

In the spirit of the Global Partnership's multi-stakeholder nature, the SLM will provide an inclusive platform – for governments, international organisations, civil society, trade unions, parliaments, local governments, the private sector, foundations and academia – to make the shift to more effective co-operation and help accelerate efforts towards the 2030 Agenda for Sustainable Development.

Formats of sessions will vary, depending on the topic, with the intention of showcasing actions and commitments undertaken by a variety of stakeholders to uphold the effectiveness principles: so that 'all countries, all stakeholders, and all people' can work better together, to achieve the 2030 Agenda.
