## **Governance Statistics in** the COVID-19 Era

The Praia Group on Governance Statistics

#### Where is data governance?

#### Analysis of social media platforms, 9-15 July (WHO) excluding "Covid-19", "Coronavirus", and "Virus"

#### Experts Acute health impact Children Data **Economic costs** Symptoms Vaccine Pandemic World **Kids Deaths** Disease Work Country Tough call **Others** Home Test **Kpop** artists Questions Masks Government

And issues of governance...?

#### Major governance challenges

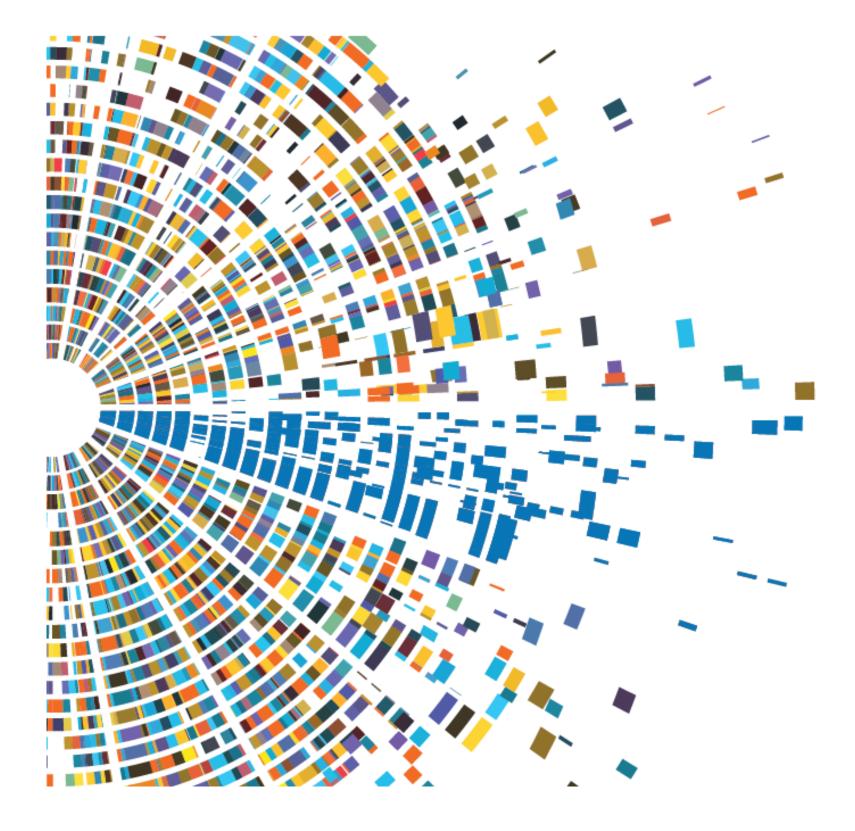

- Is testing and medical treatment for COVID-19 accesible for everyone without discrimination?
- What are the most common justice problems created or exacerbated by the pandemic?
- Are patients paying bribes to receive medical care before those unable to pay?
- Do people trust the **police** to keep the area where they live safe during lock-down measures?

#### **Existing guidance on governance statistics**

#### HANDBOOK ON GOVERNANCE **STATISTICS**

- Published by Praia Group in March 2020
- Good practices and recommended indicators for measuring 8 dimensions of governance
- COVID-19 raised new questions:
  - 1) What is most essential to measure during **COVID-19?**
  - 2) What can be realistically measured during COVID-19, keeping in mind mobility restrictions and financial constraints faced by NSOs?

#### The Guide: Who is it for?

#### Governance data producers

- National Statistical Offices (NSOs)
- Govt ministries and agencies
- Civil society, research orgs, etc.

#### Governance data users

- National COVID-19 Taskforce
- Policymakers
- Media
- Parliament
- Civil society
- Etc.

GovernanceStatistics in theCOVID-19 Era:A PRAIACITY GROUPGUIDANCE NOTE

#### **8 Thematic Briefs**

#### **Governance Statistics in the COVID-19 Era:** A PRAIA CITY GROUP GUIDANCE NOTE

- 1. Non-discrimination & equality
- 2. Participation
- 3. Openness
- 4. Justice
- 5. Responsiveness
- 6. Corruption
- 7. Trust
- 8. Safety and security

### Organization of each thematic brief

What data sources exist already?

## What data might be needed?

- Immediate response
- Long-term recovery

# What are the recommended indicators?

When generating new data, what guidance should be applied? • Surveys •Admin data sources

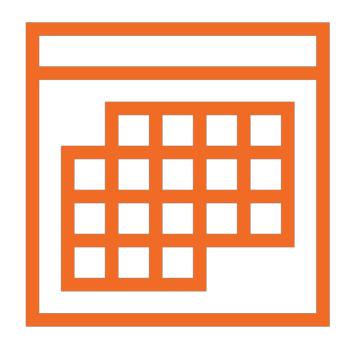

#### **Cross-cutting issues of relevance to the COVID-19 context**

- Combining objective and subjective data for better insights
- Mining existing official and non-official sources before collecting new data
- Harnessing the full potential of administrative records
- Integrating a short governance module in larger surveys for regular monitoring
- Specific issues to keep in mind when conducting governance surveys remotely
- Partnering with non-official data producers
- Going beyond data production: NSOs' role in quality assurance, partnershipbuilding and communication

#### How can NSOs use this guide: Engage COVID-19 Taskforces & Institutions on the Frontline

## Help them identify the data they need:

- Immediate response
- Longer-term recovery

Use key policy questions on top of each brief as starting point for discussion

#### How can NSOs use this guide: Build a COVID-19 Governance Dashboard

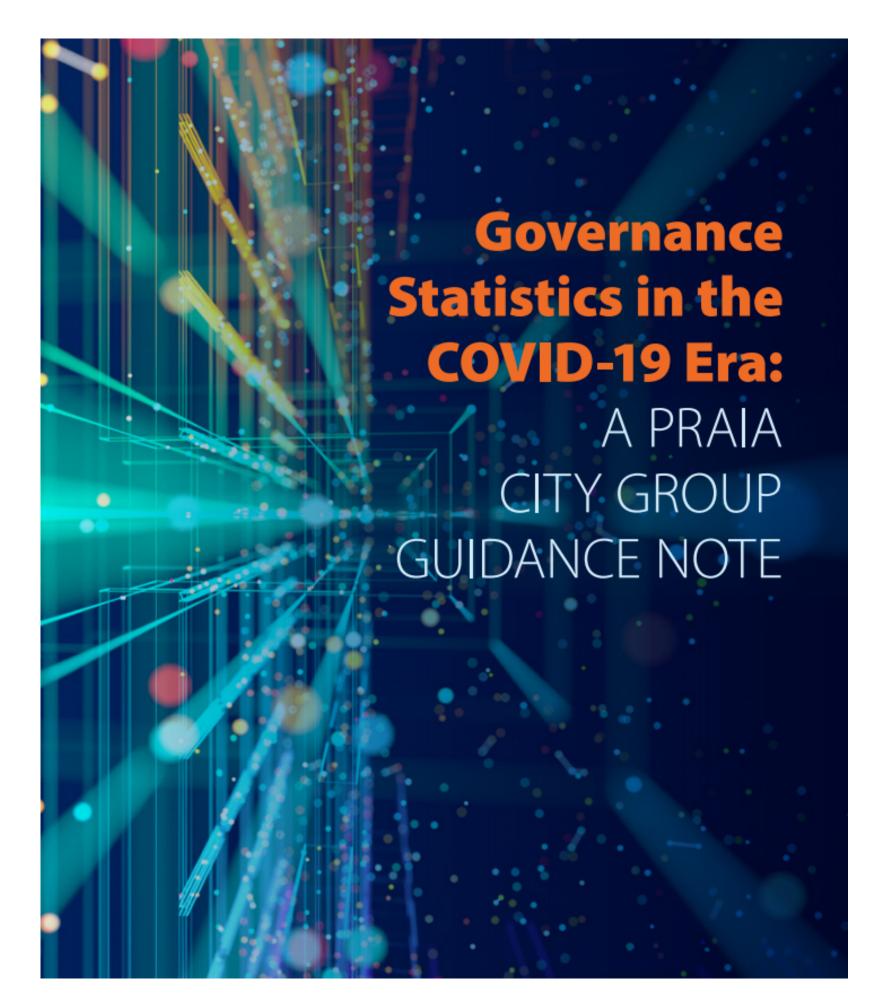

Policymakers need more than access to datasets:

## they need decision-making tools

Use recommended indicators in last section of each brief

#### 3 Take-Away's

- Governance statistics so far, largely absent from policy discussions but critical for peaceful and sustainable recovery.
- There are simple & affordable ways for NSOs to make basic data available despite constraints.
- The Praia Group is available for technical advice and wants to build a compendium of national experience: Please contact us!

## **Governance statistics in the** context of the COVID-19 pandemic: INEGI's experience

#### **INEGI's institutional efforts to measure the impact of COVID-19**

The National Institute of Statistics and Geography (INEGI) has made available to the general public special tools and statistical **programs** for analyzing the **COVID-19** pandemic effects in Mexico. We can observe these efforts from the following perspectives:

- 1. Statistical programs for impact measurement
- 2. Interactive dashboards

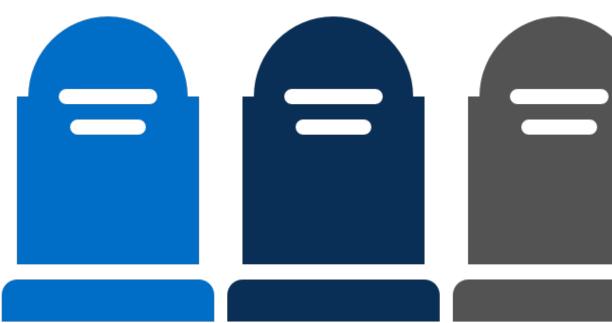

# 

# 1. Statistical programs for impact measurement

#### **Compilation of Information on Public Cemeteries in the Metropolitan Areas of Mexico**

- i. General objective: To obtain and generate information about the maintenance, capacity and administration of municipal cemeteries and the management of mortal remains from January to June 2020.
- ii. Analysis unit: Cemetery whose administration belongs to the public sector (municipal level).
- iii. Geographical coverage: National (urban).
- iv. Collection period: June 29 to August 07, 2020.

### National Survey on Urban Public Safety (ENSU)

#### **Noteworthy information related to COVID-19**: indicators on domestic violence, type of aggressor, month of occurrence

and type of violence.

Change of habits due to fear of walking around the area they live at night (Indicator 16.1.4)

#### **Collection period**

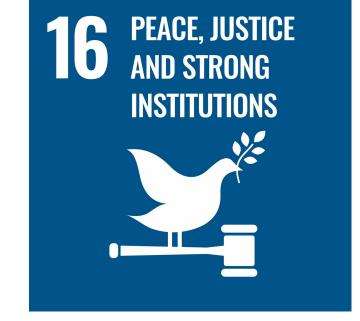

- $\checkmark$  September 1<sup>st</sup> to 15<sup>th</sup>, 2020
- $\checkmark$  December 1<sup>st</sup> to 15<sup>th</sup>, 2020

#### Sample size

 $\checkmark$  25,500 households

#### **SDG 16:**

#### **Other relevant indicators**

- ✓ Institutional trust: police, armed forces
- ✓ Victimization
- $\checkmark$  Perception of public safety

### National Survey on Civic Culture (ENCUCI)

- **Target Population:** 15 years and older.
- of discrimination, both perceived against third parties and experienced by respondents.

#### **SDG 16:**

- - me".
- international human rights law.

#### **Other relevant indicators**

- ✓ Institutional trust
- Interpersonal trust

#### **Collection period**

2020

**Noteworthy information on COVID-19**: "Having or having had COVID" was integrated as a possible cause

• Indicator 16.7.2: Proportion of population who believe decision-making is inclusive and responsive. ✓ External efficacy: "In Mexico, for decision-making, the government considers the opinions of people like

✓ Internal efficacy: "I consider that I have knowledge and skills to participate in political activities".

• Indicator 16.b.1: Proportion of population reporting having personally felt discriminated against or harassed in the previous 12 months on the basis of a ground of discrimination prohibited under

 $\checkmark$  August 17th to September 18th,

Sample size

 $\checkmark$  25,113 households

### National Survey on Regulatory Quality and Governmental Impact on **Enterprises (ENCRIGE)**

#### **SDG 16:**

**Indicator 16.5.2:** Proportion of businesses that had at least one contact with a public official and that paid a bribe to a public official, or were asked for a bribe by those public officials during the previous 12 months

#### **Other relevant indicators**

- Proportion of businesses satisfied with their last experience of public services
- $\checkmark$  Regulatory quality

#### **Collection period**

 $\checkmark$  November 3th to December 15th, 2020

#### Sample size

 $\checkmark$  34,919 enterprises

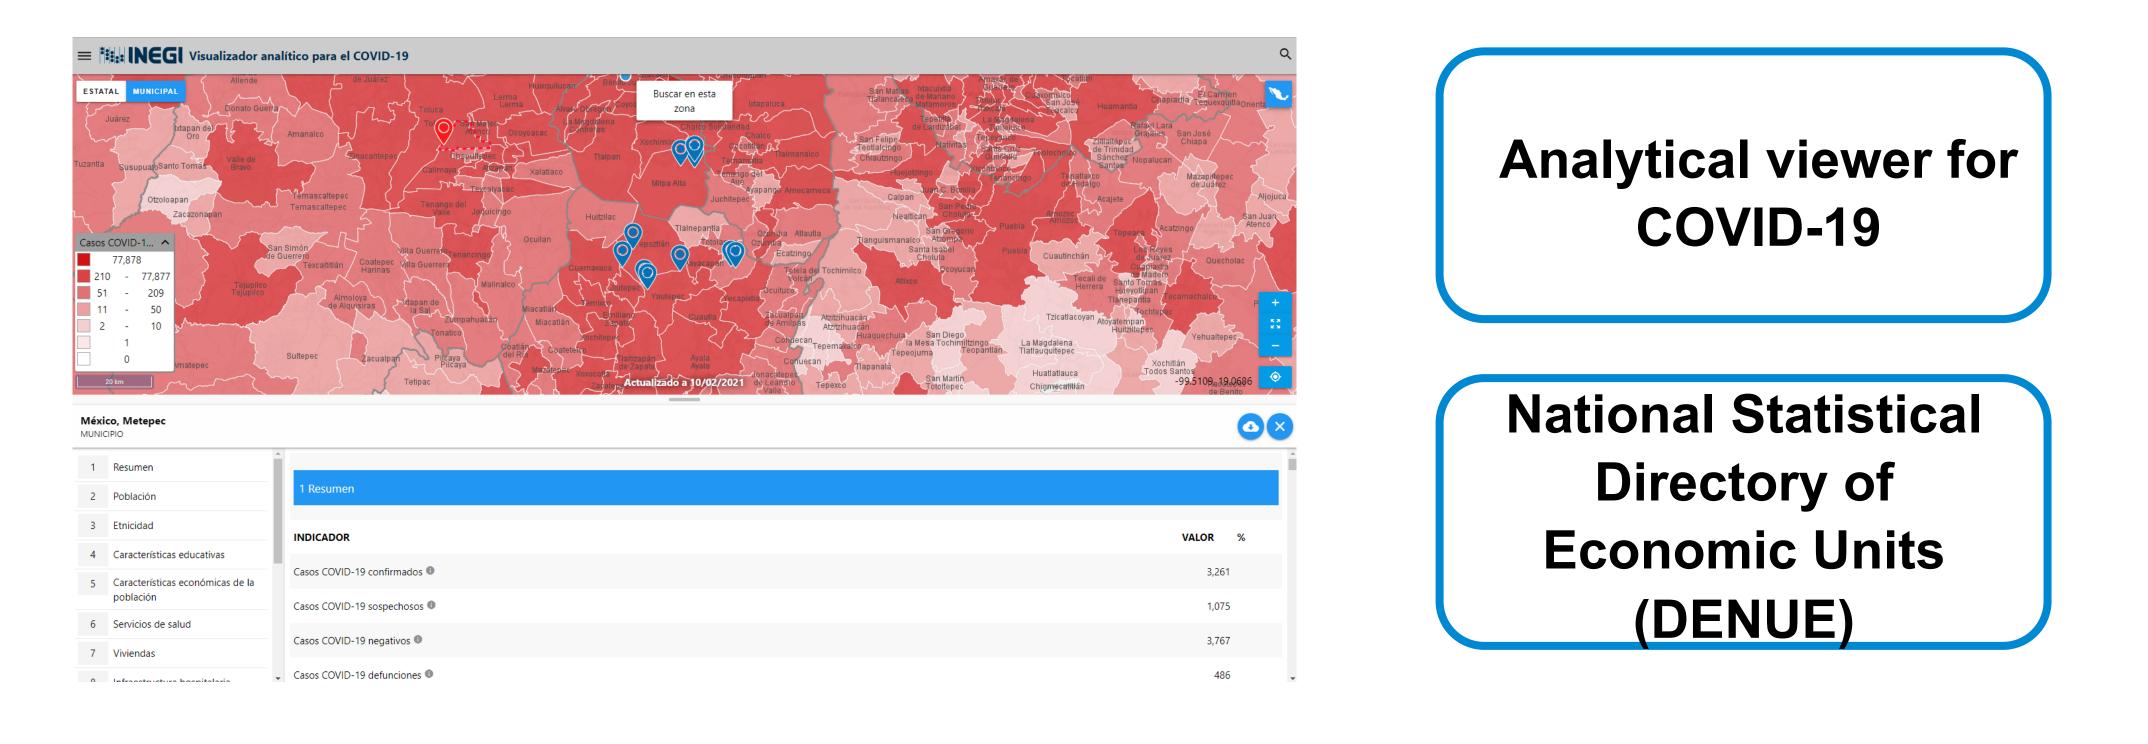

# 

### 2. Interactive dashboards

#### Interactive dashboards

Based on its current geo-data visualization platforms, INEGI created additional layers of information which allows interactive dashboards to visualize detailed data on the maps, regarding the progress and impact of the Covid-19 pandemic, correlated with socio-demographic and economic statistics of each environment.

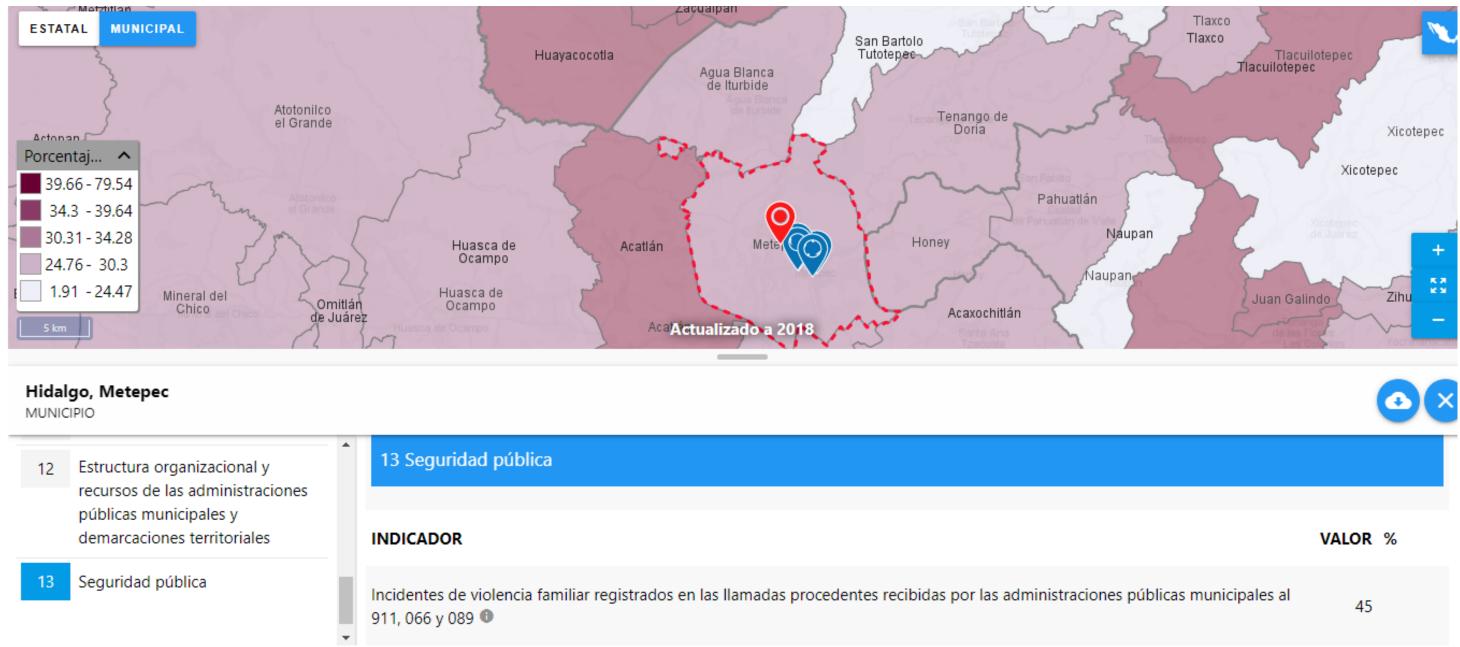

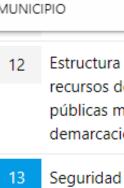

#### Governance indicators included in the dashboard

#### **Organizational structure and resources of the** municipal public administrations

- $\checkmark$  Percentage of the personnel affiliated to a social security institution (IMSS, ISSSTE)
- Percentage of budget spent on health
- Percentage of budget spent on social security
- Real estate to support the health function
- Others

#### **Public safety**

✓ Incidents of domestic violence registered in calls received by the municipal public administrations

organizacional y le las administraciones nunicipales y iones territoriales I pública	•	13 Seguridad pública	
		INDICADOR	VALOR
		Incidentes de violencia familiar registrados en las llamadas procedentes recibidas por las administraciones públicas municipales al 911, 066 y 089 ()	45
