Mainstreaming and Localizing SDG16 through Post-VNR Follow-up

Thursday, 10 June, 2021, 8:30 AM to 10:00 AM EDT

Join us for a virtual event that will explore various approaches to mainstreaming SDG16 into national and local action plans, and how a wide range of stakeholders have worked to localize SDG16, particularly in following up from a country’s VNR. The event also aims to provide an opportunity for experts working on SDG 16 to unpack the key challenges to localizing SDG16, while sharing best practices and lessons learned for meaningful inclusion in VNR and post-VNR processes.
